STEP 1: Pull the center of helmet top upward. You may need to wiggle it loose due to the friction fit.

STEP 2: Pull the right side of helmet away from the head. Then remove other helmet piece.

STEP 3 & 4: Remove helmet hair piece and replace with standard hair piece.

STEP 5: To reattach helmet pieces, snap left and right sides of helmet together using the keys and their corresponding key holes.

STEP 6: Attach chin strap to the magnet on the inside of the helmet.

STEP 7: To adjust the visor, gently guide it along the center rail.

STEP 8: Reattach the top piece of helmet.
