1. Take the figures left arm, maneuver it through the left sleeve and slide it into the left shoulder key as shown.

2. Take the figures right arm, maneuver it through the right sleeve and slide it into the right shoulder key as shown.

3. Make sure both arms are secured on the figures torso. Bring the figures coat over and down so that it rests correctly on the body.

4. Make sure the neck key is visible so that you may install the portrait. Install the gas mask around the neck before installing the portrait.

5. Place the blasters barrel on the figures left hand.
