WE RECOMMEND TWO PEOPLE FOR OPENING BOX AND ASSEMBLY.

STEP 1

**STEP 1:** Gently place legs onto base by aligning the key pin (on the figures left foot) with base key hole.

**Note:** Use both hands or two people for this assembly.

STEP 2

**STEP 2:** The key on the top of the legs keys into the chest.

**Note:** Use both hands or two people for this assembly.

STEP 3

**STEP 3:** Insert the arms by aligning the key pins with the corresponding holes in the shoulder area of the torso.

**Note:** Attach arms one at a time.

STEP 4

**STEP 4:** Shoulder pads magnetically attach to the arms.

**Note:** The shoulder pads are not interchangeable.

STEP 5

**STEP 5:** Pistons magnetically attach to the upper sides of the chest.

STEP 6

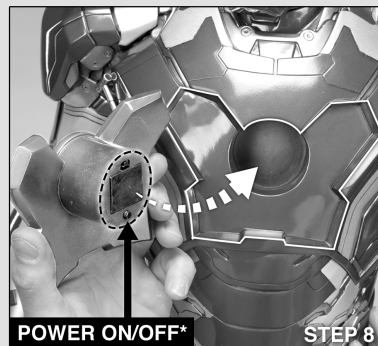

**STEP 6:** Head keys into the hole in the figures neck.

STEP 7

**STEP 7:** Face mask magnetically attaches to figures head.

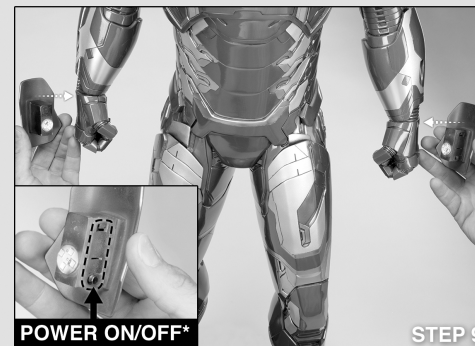

*\*On/Off switch for the light-up eyes is located on the back of the face mask.*

STEP 8

**STEP 8:** Light-up arc reactor magnetically attaches to the center of the chest.

*\*On/Off switch for light-up arc reactor is located on the back of the chest piece.*

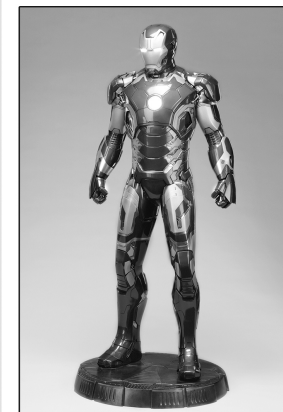

STEP 9

**STEP 9:** Wrist shields magnetically attach to the top of the left and right hands.

*\*On/Off switch for light-up hands is located on the back of each wrist shield.*

**Note:** Wrist shields are not interchangeable.

Finished assembly
