DEAD

LEGENDARY SCALE FIGURES

The increased size of The Reaper: Death's General Legendary Scale™ Figure provided Sideshow artisans with a larger creative 'canvas,' allowing added detail and realism in sculpture, paint application and costume fabrication. The larger sculptural base created opportunity for pose realism and greater detail in facial expression, and defining features, including skin texture, unique markings, and scarring. Similarly, the paint application was executed with greater precision for more natural shading and subtle textural details. Larger costuming patterns provided opportunity for better fit and accuracy in clothing and accessories, including greater authenticity in material choices and finishes, as well as, functional pockets, belts, and holsters.

With his striking realism, refined detailing and commanding size, The Reaper: Death's General Legendary Scale™ Figure elevates a collection into a gallery display. Intended for pedestal or tabletop presentation, this centerpiece figure is designed to stand eye-to-eye with viewers, drawing them in and challenging them to enter the world of The Reaper. This commanding figure is a lifelike showpiece unlike any other, capturing the essence and emotion of one of Mythology's pinnacle characters.

Along with legendary size comes legendary care in the assembly process. In the next few pages you will be guided through several steps for the proper assembly of The Reaper: Death's General Legendary Scale™ Figure. Please exercise legendary care when assembling The Reaper: Death's General Legendary Scale™ Figure.
